

Изд. № 000/00

The diagrams show four variations of the symbol $\sqrt{\text{Ra } 12,5(\checkmark)}$ where the circle and triangle are placed inside the square root symbol in different positions and orientations:

- Top-left: Circle and triangle are inside the square root, with the triangle pointing up and to the right.
- Top-right: Circle and triangle are inside the square root, with the triangle pointing down and to the left.
- Bottom-left: Circle and triangle are inside the square root, with the triangle pointing down and to the left.
- Bottom-right: Circle and triangle are inside the square root, with the triangle pointing up and to the right.
